

FLY WITH THE BEST

Aircraft Interior Solutions by VASI IPG

If you have a problem application, we'll work with you to solve it.
If you have an unattainable deadline, we'll work with you to make it attainable.

We have an extensive knowledge of interior product materials and airframe engineering, which qualifies us to work with customers and manufacturers at the product-development level to accommodate the most complex needs.

If your product characteristic demands are too high for others, count on us to raise the bar.

Fly with the best. Call VASI IPG.

At VASI IPG, we're passionate about meeting the complex demands of the aircraft materials industry. Safety, quality, timing and budget are essential, but we also keep you at the leading edge of design trends--offering the right colors and styles to satisfy discriminating aircraft owners and operators.

Whatever your goal, we'll get you there in style, in spec and on time.
